## RESULTS, RESULTS, RESULTS...

If this is repetitious, it should be the kind of repetition dear to people who like to win, and I haven't met anyone who doesn't like to win or who doesn't like winners.

The OJ Thomas tennis team, 7th and 8th grade boys and girls won four division championships out of eight in the 23AA junior high district tournament here Monday. That means another district tennis championship.

Cameron's OJT tennis juniors won boy's and girl's eighth grade singles, including a sixth grader in boy's finals, seventh grade boys doubles and finalists and seventh grade girls' doubles in three sets.

That means out of 16 finalists in eight divisions, Cameron OJT had six finalists, four winning.

Betty Sue Chubb won her second tournament in less than a week, winning the junior high girls' singles in Georgetown Saturday and here Monday.

We won't bore you with a review of what a basically freshman-sophomore high school boys' team did in winning 23AA seniors as well as one sophomore girl winning second in senior girls singles and going to the second round in regional.

The boys ran into trouble throughout first-round play at regional, not unusual for a group averaging little more than 15 years of age.

In addition, OJT Principal Bill Huffman said that pre-registration among new sixth graders for the fall listed 75 wanting tennis. The OJT campus court and the new ones in OJT Park are going to see a lot of practice sessions.

Even a careful observer might surmise "dynasty" coming out of this. It suggests adequate justification for improving those Yoe High School court surfaces and additional courts at City Park to meet growing need for post-high school players who are cramming the place nightly under the lights.

Examination of the numbers puts the sport in a strength position in both girls and boys categories, doubles and singles for at least five years.

That is ample justification to match the numbers with a proportionate share of additional courts. It's easy for anyone to see what the present facilities already have done in two seasons available in City

## WEATHER NOTES

MAY	HI	LO	RAIN
4	83	69	
5	80	70	
6	83	65	
7	82	62	
8	81	67	
9	82	66	
10	78	62	.33

Park, barely one-fourth of a season around OJT.

For those fascinated by statistics, won-lost, the bric-a-brac of district 23AA sports, here's some to examine:

Out of 24 district finals in junior high boys and girls 7th and 8th grades, district boys seniors and juniors brackets and district girls seniors and juniors brackets, Cameron in the past three weeks produced 6 division champions and five division finalists.

It stands comparison with any performance in 23AA this year in one sport. It stands comparison with a 6-grade program in one sport in the history of this town.

Now, about those courts.....

## News Briefs

### 'Pot' Plant Nets Arrest

Cameron police arrested and charged a Cameron man, John Perry, with the manufacture of a controlled substance after a marijuana plant was found in a residence at 1406 N. Fannin early Sunday Morning.

Perry was also charged with possession of marijuana after a small quantity of the weed was found in his car.

He was released from jail after posting bond of \$2,000 on the manufacturing charge and \$500 on the possession charge.

Officers noticed the plant when they answered a call to the residence about a disturbance there.

### Gause In Competition

The Gause community won the District 10 Community Improvement contest and will be judged in regional competition on Friday, May 13.

Gause will be competing with Callosburg in Cooke County, Little River-Academy in Bell County, and Salina in Tom Green County.

Judging will begin at the Gause community center at 10 a.m.

### Police Car Loses Wheel

No injuries were reported in a minor accident involving a Cameron police unit late Saturday night when the patrol car lost a wheel on the railroad tracks in the 500 block of S. Rusk.

The car driven by Sgt. Joe Cottle was in pursuit of a vehicle for a traffic violation when the accident occurred. The car was later found abandoned in an alley near Hefley St.

Officer Jack Gordon was a passenger in the police car.

## Radian Report 'Not For Workers'

Shell Oil officials assured Noon Lions Club members and visitors at a meeting Monday that the Radian Corp. report revealed recently was not compiled for lignite mine workers but is required for mining permit applications.

Speaking before the gathering, Shell mining manager Neil Isto said the report was compiled from an environmental impact study by Radian on the effects lignite mining would have on Milam County.

Isto explained that Shell is still looking for a customer for the lignite, which will be mined on some 24,000 acres now leased in the

county. He said possible customers for the coal would be power plants or an industrial user away from the mining area.

He said required state and federal permits would take a year or more for approval, and an environmental impact study is one of the requirements for the permits.

Isto said it would take five or six years for a mine-mouth customer to build a plant to burn the lignite. In the case of an out-of-area customer, the coal would be shipped by rail.

The Radian report cited only two problems to be faced by mine workers coming into the county -- housing shortages and possible overcrowding in Rockdale schools and in Cameron elementary grades.

On the housing situation, Isto said financing is available, while land, utilities, and construction labor are adequate to meet the problem.

Demand for housing for construction workers would begin around

1981, Isto said, with others on the mine payroll needing housing in 1982. He said Shell will continue to watch to see if the construction industry can meet demand.

In answering questions following its presentation, Isto said a mine-mouth customer could have an even greater impact on the county than an outside customer. He predicted that the mining venture would have a direct impact on the economy of some \$4.2 million, with indirect impact of about \$7 million.

Isto said a slurry pipeline from Milam to the coast is not a probability, as the distance is not great enough. He said movement of the coal would be by rail.

He said mining lignite is not new, but the conversion from natural gas to coal for plants as required by the President's energy program is.

And he added that the conversion of coal to liquid gas would be very expensive, with the gas costing \$3-\$4 per 1000 where it now costs \$2.

## Top Seniors Named For Buckholts School

Seniors Eleanor Svetlik and Cassandra Marak have been named for top scholastic honors at Buckholts High School.

Eleanor, the daughter of Mr. and Mrs. Elbert Svetlik Sr., is the Valedictorian and Cassandra, daughter of Mr. and Mrs. Adolph Marak, will receive salutatorian honors.

Eleanor has been active in 4-H, and FFA, basketball, volleyball, track and pep squad. During her high school career she has won several awards showing livestock and is a two-year participant in the Buckholts FFA-Coop program.

She received the diversified Livestock Award from FFA and will receive her Lone Star Farmer Degree in July. She was also the 1977 May Fete Queen.

Cassandra participated in basketball, volleyball, pep squad and tennis. She competed in UIL spelling competition, received the FHA Outstanding Student Award and Chapter Degree awards as a sophomore and the Betty Crocker Homemaker Award this year.

Other current honors include senior class vice-president, pep-squad co-captain, Miss BHS, and homecoming nominee. She was also awarded the sales and service award through the FFA Coop Program.

Graduation exercises for Buckholts seniors will be held May 26 at 8 p.m. in the school gymnasium. The Rev. Ronnie Watson will be Baccalaureate speaker and Charles Behrens will be the commencement speaker at the combined services.

Other graduates include Michael Allison, Alice Collins, Donnie Gaas, Harvey Gommert, Craig Juneke, Danny

Krall, Laura Kuzel, Billy Marek, Johnny Marek, Vickie Orsag, and Ralph Ruzicka.

### EIGHTH GRADE

Buckholts students Raye Nell Obermiller, daughter of Mr. and Mrs. Charles Obermiller, and Donna Lynn Rachui, daughter of Mr. and Mrs. Calvin Rachui, have been named honor graduates of the 8th grade class.

These students will be recognized along with other eighth graders during graduation ceremonies May 26.

The eighth grade class includes Margie Frenzel, Carla Kuzel, Mickey Montalbo, Randy Montalbo, Raye Nell Obermiller, Donna Rachui, Janie Rodriquez, and Lisa Rubac.

## Flows 1,226 Barrels...

# New Oil Well Tested

## BID LETTING DUE ON MILAM HIGHWAY WORK

Bids for the application of asphaltic concrete pavement to portions of US 190 and US 77 in Milam County are expected to be accepted at the May 18-19 letting of the State Department of Highways and Public Transportation.

The project on US 190 extends from 8.5 miles west of Cameron to 3.2 miles east of the Bell County line, a distance of about 3.6 miles. The US 77 project extends from the Falls County line to the junction with US 190 in Cameron, a distance of about 12.4 miles.

Existing rough pavement will be leveled where required and an overall one-inch course of hot mix asphaltic concrete applied.

Upon completion, the project will provide a smoother, safer, more skid resistant travel surface.

Guy R. Ward of Buffalo will be the department's engineer in charge of the work, while overall project supervision will be provided by Bryan District Engineer Joe G. Hanover.

A new well that is expected to "open up production in Milam County" was reported by Martin Oil & Gas Co. of Phoenix and Great Basins Petroleum Co. of Los Angeles.

The well, located about a mile and a half from Milano, flowed 1,226 barrels of oil during a 24-hour test, with 85 barrels of water and 950,000 cubic feet of gas through a 5/8-inch choke with a 610 psi flowing tubing pressure, Great Basins reported.

Maletta Martin, owner of Martin Oil & Gas, said the well was completed in the Georgetown Limestone

from a perforated interval between 5,870 and 5,880 feet.

Martin is the operator of the drilling program under which the well was drilled. Great Basins owns a quarter of the program.

Great Basins said three other Milam County wells in the program will be tested "in the near future."

Martin said he expected the well "to open up production in Milam County." He said his company holds about 10,000 acres in the county.

The newly-completed well is designated as the No. 1 Ashley Linnstaedter.

## County Leaves Pct. 1 Constable Post Open

The post of constable for Precinct 1 will be left open until the next primary election, following action by county commissioners at a regular meeting Monday morning.

Another application for the position to fill the unexpired term of Maurice Lowrey was presented by County Judge O.B. Harden. The application was submitted by Claude Sanders.

A previous application had been filed by Tommy Chamberlain.

In other business, commissioners voted to try a bounty system for control of coyotes and wolves in the county, setting the bounty at \$7.50 per animal killed.

Anyone wanting to collect a bounty will have to present an affidavit from the landowner on whose property the animal was killed, bring in both ears of the animal, and have the animal identified by a qualified expert.

Harden said sheriff's deputy John Brooks had served as identifying officer for Burleson County and could do the work for Milam.

The court approved appointment of Joe Janek to replace Kenneth Waites as assistant county agent. Waites will leave June 1 to take up ranch management.

A.W. McCullin, CDA director, asked commissioners to consider participating in a paving program in West Cameron that will take in 12th St., along which the county owns property. He said the county's cost would probably run around \$6,500.

Approval was given for Mrs. Sonny Swanzy the jail cook, to take a week off with the sheriff's department furnishing food for prisoners during the week.

Court authorized Judge Harden to request a supply of Mirex from the state agriculture department for fire ant control. The Mirex is furnished free by the department.

The commissioners and judge were sworn in by County Clerk Wayne Wieser as the county tax equalization board, with their first meeting set for June 6.

A contract for maintenance of electrical equipment at the county tax office from Albert Epperson was tabled until Thursday's meeting. Epperson offers to maintain and repair the air conditioning and heating system, ventilation equipment, and the fire alarm system, and furnish light bulbs and fluorescent tubes for \$1332 a year.

New District Clerk Leola Komar asked if her office could be moved to the district judge's office because of more space being needed. She said the district judge had agreed to the exchange.

She said the district clerk's office was "full and running over" into other storage rooms. Commissioners approved the move, and agreed to furnish some new lighting fixtures.

### Firemen Answer Call

Cameron firemen were called out shortly after 4 p.m. Sunday to a small fire in the garage of the Joe Shirley home at 608 W. 4th St. Johnny Schmidt, who drove the firetruck, said the fire, which was in a cardboard box, was put out with a garden hose.

## Nothing Left But...

Reagan Brown, the new Texas agriculture commissioner, went "hurrah for God, flag and country" the other day at a Hearne Vo-Ag banquet.

He praised American farmers "as the hope of a hungry world."

We know he is enthusiastic in his new job as agriculture commissioner, that as a speaker and rural sociologist who has gone before thousands of audiences, he speaks to the interests of the audience.

But the tone of that talk sounds so patronizing it diminishes the professional

level of work he attained to deserve nomination for the state agriculture secretary's job.

Why is it traditionalists like Governor Briscoe, who appointed Mr. Brown, can find inspiration only in the obvious symbols of this country? Why is it these obviously "good things" are so shiny with rhetoric and so hollow in meaning to whole generations of young people, such as the one just approaching 30 who opposed everything?

Perhaps all they have left after such a presentation is enthusiasm?

## More New Street Signs...

One of the best improvements in a long time, not in size, but for convenience, is allocation of more than \$6,000 for additional Cameron street signs.

We have all this modernization going, but it is difficult to read the signs along perhaps half the streets of the town. A sign program a few years ago before completion exhausted funds for new ones.

This will be a nice accompaniment of new curb and street construction in much of the north side residential areas. The signs to be replaced are perhaps 25 years old.

The easy-to-read green street markers have been a vast improvement as far as they went.

Perhaps this \$6,000 project will complete the legible designation of streets including stop signs and street markers.

### "Low Down" FROM THE Congressional Record

By JOE CRUMP

(A Column for Readers Who Haven't Time to  
Review the Congressional Record Daily)

#### ELECTION DAY VOTER REGISTRATION ARGUED

Pro. Senator Edward M. Kennedy (Mass.) "At the end of last week I received a most welcome letter from the Secretary of State of the Commonwealth of Massachusetts, the Honorable Paul Guzzi, strongly endorsing the recent election reform proposals made by President Carter and Vice President Mondale.

"In his letter, Secretary Guzzi gives his strong support to the Carter administration's proposals for election day registration, public financing of congressional elections, and the direct popular election of the President.

"Secretary Guzzi deals at length with the cornerstone of the Carter administration's reform package, the proposal for election day registration. Under this proposal, voters would be entitled to register at the polls on election day and then vote. Mr. Guzzi calls this proposal one of the most effective ways to encourage voter participation. He also argues persuasively that two of the problems sometimes mentioned in connection with election day registration -- the possibility of fraud and the question of long lines at the polls -- can be effectively avoided by State and local jurisdictions.

"Under the bill for example, Massachusetts would qualify for a total of \$1.5 million in Federal funds for such activities.

Con. Senator James B. Allen (Ala.) "Actually, the bill will provide for universal nonregistration, because it is to provide, as I understand it, that prospective voters do not have to register in advance in order to be allowed to vote. They can go to the polling booth on election day, identify themselves through some method such as a drivers license, social security card, some sort of ID card, and be allowed to vote if they are 18 years of age or over.

"There is no need for this proposed law. I suggest that it will have strong opposition in committee and on the floor.

"What this would do would, be, particularly in a big city, to allow those who are interested in having people vote to clean out every skid row hotel, every street corner, every pool room, every beer joint, every X-rate movie house, even massage parlor, and herd these people to the polls and vote them like sheep.

"We can imagine that people so herded to the polls would

have very little interest in fiscal responsibility. They would be not at all interested in curbing permissiveness. So the potential for fraud is enormous.

"I assure the Senate that this is a bad bill and I hope it will be defeated."

#### CRUMP'S GRASS ROOTS COMMENT

The floor debate on Election Day Registration should be very lively.

#### Dateline Austin

## Texas Has New Filibuster Champ

Texas has a brand new world filibuster champ — Sen Bill Meier of Eules.

Meier, 36, with 43 hours of (nearly) continuous oratory, broke the old record set in 1972 by former Sen. Mike McKool of Dallas.

A scholarly Fort Worth area lawyer, Meier is a sharp contrast to McKool. He stands six feet two inches tall and weighs in at 190. McKool is five feet three, and was 53 at the time he set his 42 hours, 33 minutes filibuster record.

Meier's strenuous verbal attack was leveled against a section of a workers' compensation law revision bill which closed job injury records of the state Industrial Accident Board to firms which copy and sell the data to employers.

"This is nothing more than the first chink in the Open Records Act," said Meier. "What do you say to other agencies which demand similar exemptions?"

Although unsuccessful in stopping or altering the bill he opposed, Meier said he thinks his filibuster served a purpose.

"You can talk to the House through a filibuster — and to the people of the state," said Meier. "I hope the bill doesn't go through the House with the same meteoric speed it went through the Senate.

Sen. Ray Farabee of Wichita Falls, sponsor of the workers' compensation revision, said the bill would close job injury files only to those who would use them for commercial purposes. He said other sections would save employers \$35 million in insurance premiums.

#### Budgets Move

The House finally agreed on a \$15.3 billion biennial state budget bill after a tedious eight solid days of debate, during which \$362.1 million was shaved from Appropriations Committee spending proposals.

Senators this week got

down to work on their own version in order to get the heavy financial duties of the legislative session in the hands of a conference committee as fast as possible.

The Senate, meanwhile, is awaiting debate on an \$820 million school finance bill.

#### Injections OK'd

A bill to substitute deadly injections for the electric chair as the legal means of executing condemned criminals in Texas has been sent to the governor.

Texas, thus, may become the first state to carry out court-ordered death penalty sentences by means of drug injections.

Assuming signature by Gov. Dolph Briscoe, the bill (HB 945) by Rep. Ben Z. Grant of Marshall would go into effect 90 days after the session closes May 30.

The legislation changes

the method of execution in Texas for the first time in more than half a century.

#### Tax Reform Dead?

A far-reaching property tax reform bill passed by the House appears doomed in the Senate.

Hearing was delayed until late this week, and the sponsor Rep. Wayne Peveto, irate over continued opposition of some senators, threatened to force their bills off the House local calendar in retaliation.

Sen. Tom Creighton of Mineral Wells said he would make no effort to move the measure out of his Senate committee until sponsors can show him 21 votes to pass it on the floor.

#### AG Opinions

Legislators are prevented from representing prison inmates for a fee in private interviews with the Board of Pardons and Paroles, Atty. Gen. John Hill stated.

Hill said the board can forbid lawmakers from representing the inmates for pay in proceedings which are either non-adversary or non-public.

In other recent opinions, Hill concluded:

The legislature is free to change the name of the Texas Railroad Commission to the Energy and Transportation Commission.

The family code requires the reporting of sexual abuse, failure to provide adequate food, clothing and shelter, and any conduct sufficient for termination of a parent-child relationship.

#### Courts Speak

In spite of soaring gas rate increases since 1973, the Texas Supreme Court held Lo-Vaca Gathering

## OLD PHILOSOPHER

Dear editor:

According to an article I read in a newspaper the other day, President Carter is getting about 75,000 letters a week from people around the country. It might be even more, but you know how the mail service is these days.

Anyway, I got to thinking about this. Seventy-five thousand letters! If each letter averages just 100 words, that's 7,500,000 words or, divided into books of 50,000 words each, 150 books.

Now no man can read 150 books a week and still have time to run the country and teach a Sunday School class too. So obviously somebody else reads the letters and answers them. It's like nine million people trying to call the President when he held his famous phone-in a while back. Only about a dozen actually got to talk to him. Those 75,000 letters a week constitute a problem for which I have no solution. It's one of those problems like energy or the Middle East which, after you get through

stating it, you're too tired to go any further.

But speaking of mail, I understand some people are suggesting the post office department adopt an electronic system of delivering letters. Instead of being actually carried from one town to another, the letter is photographed and transmitted by wire to its destination, where another machine reproduces it exactly like you wrote it and seals it. A mailman then delivers it to the proper address, as soon as he can get around to it.

The system has a few drawbacks, like what about privacy, although I guess clerks could be required to turn out the lights when they're feeding your letter into the transmitting machine so they couldn't see what you wrote.

This reminds me of an experience a depot agent in a small town had back in the days when we had trains and the agent, being the only telegrapher in town, handled telegrams.

One cold rainy day he received a telegram on his wires for a woman. He telephoned her and said he had a telegram for her but since it was too cold and rainy outside for her to come by and pick it up, would she like for him to read it to her?

"Don't you dare open my telegram!" she shouted.

Yours faithfully,  
J.A.

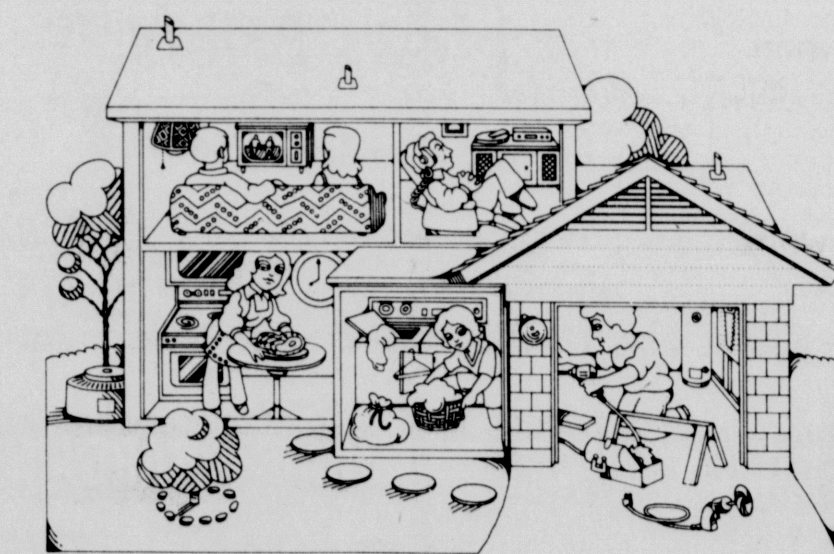

#### Servicemen

JUSTIN WALLACE

Navy Lieutenant (junior grade) Justin L. Wallace, son of Mr. and Mrs. V.L. Wallace of Rosebud, has returned from an eight-month deployment in the western Pacific and Indian Ocean.

He is the electronic warfare officer of Tactical Electronic Squadron (VAQ-134), homebased at the Whidbey Island Naval Air Station, Oak Harbor, Wash. His squadron was embarked aboard the aircraft carrier USS enterprise during the deployment, and operated as a unit of the U.S. Seventh Fleet.

## Still a good buy... all over the house.

## But, conserve electricity and save money.

Forty or fifty years ago, the electric bill was most often referred to as "the light bill." In thousands of homes, Mr. Edison's illuminating invention was not the only electrically operated device in use, but people associated its benefits with their costs for electricity. Today, higher costs for electricity seem to overshadow the many benefits of electricity. The majority of American homes now have at least 14 different electric appliances, in addition to

lighting: radio, television, refrigerator, vacuum cleaner, clothes washer, iron, toaster, coffee maker, mixer, range, frypan, bed coverings, can opener and some type of air conditioner.

Whether you have 14 or 40 electric appliances, we believe that if you will compare their benefits with your costs of operating them, you'll agree that electricity is still a good buy... all over the house.

County Agent's Notes

# Herbicides Can Damage Fields

**BILL McCUTCHEN**

Herbicides are one of the greatest tools of modern agriculture but we occasionally get a reminder that they need to be used correctly and according to the label.

We have had several instances of herbicide damage over the past several years and quite a few this spring.

Treflan for instance is causing severe damage on grain sorghum where it was put out late last spring for cotton weed control at more than the recommended rate.

Producers are inclined to fudge on chemical rates to insure weed control and this can lead to drastic problems with the present or subsequent crop.

Chemical injury is a possibility with most materials even at recommended rates when environmental conditions are adverse.

The best advice I can give you is to read the label closely prior to use and adhere to it. Calibrate your spray equipment regularly and know how much material you are applying.

## PECAN NUT CASEBEARER

Pecan crop prospects are looking pretty good in most areas and to keep prospects good we must control the number one pecan insect, the pecan nut casebearer.

Historically applications for the first generation pecan nut casebearer are made from mid to the last of May. I will be checking for egg lay and announce spray dates as soon as they can be determined.

When spraying pecans be sure to include a fungicide such as Duter or Benlate, and insecticide and zinc sulphate for pecan rosette control.

## Falstaff To Produce Low-Cal Beer

James E. Bartosh of Falstaff Distributing Co. of Taylor, joins with other Texas Falstaff distributors in inaugurating the new light "Falstaff 96."

"Falstaff 96" is named after its calorie level -- 96 calories per 12 fluid ounces.

Bartosh announces the new package is expected to be a great selling item and expects it to create some new jobs in the future.

The new beer will be available June 1 in Milam and Williamson counties.

"Peace is our final good." St. Augustine

Reagan V. Brown, Commissioner

### All That Glitters... Fewer Potatoes... More Milk.

With the sharp increase in cotton acres expected in Texas this year, it appears that the state's cotton industry will be the major share of crop income.

But there are problems ahead for cotton, too, not necessarily in price but in ginning.

A series of hearings is now being held throughout the nation relating to a proposed cotton dust standard from the Occupational Safety and Health Administration (OSHA).

The National Cotton Council estimates the industry-wide installation cost of dust control equipment alone at \$3.2 billion. The study also shows an estimated \$2.5 billion cost for textile mills alone.

Opponents of the measure say the adoption of the

standard would cause cotton usage to drop drastically, that the cost of producing cotton would increase, and that many gins would be forced out of business because they could not afford to install the equipment. Thus, cotton production itself would decrease, they conclude.

Meanwhile, cotton farmers in the state are apparently optimistic about the future of that crop for this year. They indicate they plan to plant 6,300,000 acres this year. This is a 31 per cent increase over a year ago and is the highest acreage to be planted to cotton in Texas since 1962.

Nationwide, cotton producers intend to plant 13,600,000 acres this year, which is an increase of 17 per cent from a year ago.

The Spring Potato Crop for Texas is now forecast to be 28 per cent below a year ago.

Potato harvest is underway in the Lower Rio Grande Valley.

## FGIS Pledges To Restore Faith In Grain Quality

Bob Meyer, U.S. assistant secretary of agriculture for marketing services, said Friday that the Federal Grain Inspection Service (FGIS) will restore faith of foreign buyers in the quality grain which American farmers produce.

"Even though American farmers produced the highest quality grain in the world, this quality was not maintained to export sales destinations, and that was scandalous," Meyer told the Oregon Cattlemen's Association Board of Directors at a noon luncheon in Ontario, Oregon.

"We have reason to believe that we have lost sales to other countries, because foreign buyers have more confidence that other suppliers will deliver a higher quality grain," Meyer added.

The assistant secretary outlined the key provisions of the amended Grain Standards Act which created FGIS late last year and said, "These provisions will thwart the flagrant abuses and outright fraud which have plagued the exporting of American grain in past years."

FGIS is mandated by Congress to ensure uniform ap-

plication of official grain standards, provide accurate and dependable official inspection services for all grain shipments, federally control the weighing of all grain exports, and review existing grain standards and make recommendations for changes if they do not reflect the true market value or the end use of the product.

There have been 124 indictments alleging bribery, misgrading, shortweighing, and a host of other violations

## 4-H CLUB NEWS

Chris Holcombe

Twenty-seven Milam County 4-H'ers, parents, leaders, and agents attended the district 10 4-H Roundup contests on April 30 at Bastrop High School.

Placing first and qualifying for State 4-H Roundup was the senior entomology team composed of Larry Hauk, Christopher Riola, Juliann McDaniel, and Vanessa Marak.

Also placing first and qualifying for state roundup was Jimmy Kemnitz in the home environment educational activity.

Placing first in the junior division was the junior entomology team composed of Billy Fred McCutchen, Dominic Riola, Rosemary Riola, Rhonda Hodge, and Glenda Shelton.

Placing second in the senior companion animal demonstration was Kathy Keyser of Gause.

In the safety demonstration Teresa Beasley and Beverly Biar of Thorndale placed second.

Ray Marak of Cameron placed third in the junior

home environment educational activity.

Also accompanying the group were Peter Riola of Cameron and Debbie Malone of Rockdale. Peter and Debbie attended a planning conference on District 10 4-H Leadership Lab.

Leaders attending were Mrs. Charles Riola, Mrs. Johnny Ray Marak, Jr., Mrs. Harold Biar, and Mrs. Florence Keyser. 4-H visitors were Pam Korngay, Billy Korngay, and Lori Tomaseik. The group was accompanied by extension agents Chris Holcombe, Vivian Pittman, John Snell, and Bill McCutchen.

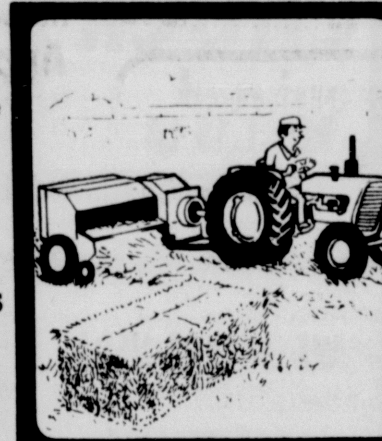

## 'Beautify Texas' Meet Scheduled At A&M

Citizens from nine East Texas counties who are interested in "making Texas the cleanest, most beautiful state in the Nation" will attend a Beautify Texas Council district meeting at Texas A & M University May 20.

Coordinating activities for the meeting is Mrs. Dorothy Holland, BTC district governor and associate editor with the Texas Agricultural Extension Service. The meeting begins at 9 a.m. in Room 504 of the Rudder Center on the TAMU campus.

Counties involved are Brazos, Burleson, Freestone, Grimes, Leon, Madison, Milam, Robertson and Washington. Mrs. Holland invites all persons interested in beautification and environmental improvement to participate.

**Swimming Classes Set At TJC Pool**

Registration is now open for the summer swimming program at Temple Junior College.  
Mrs. Audine Brandes will be the instructor for the summer classes for both children and adults.  
Adult swimming (all levels) will meet from 6:30 to 8 p.m. on Mondays and Wednesdays. The first session will be June 6-July 6 and the second session will be July 11-Aug. 10. Cost is \$22.50.  
Classes for children ages 6-12 will meet one hour per day, Monday through Friday for two weeks per session. Sessions will be June 6-17, June 20-July 1, July 5-15, July 18-29 and Aug. 1-12. Cost is \$15.  
Special classes for children under six years will also be organized. A meet-under 6 will be held from 12:30 to 1 p.m. on Wednesday, June 1, in Room 601 of the East Gym for registration for these classes.  
The TJC pool also will be open for family recreational swimming on Tuesdays and Thursdays from 6:30 to 8:30 p.m. from June 7 through Aug. 11. Cost is \$25.  
For more information, contact the TJC Continuing Education Division at 773-9961, ext. 66.

**3 Convicted Of Social Security Fraud**

E.B. Oldham, manager of the Temple Social Security Office, announced today that three persons in the five state southwest region were recently convicted of defrauding the Social Security Administration.  
Robert A. Underwood, Oklahoma City, pled guilty before the U.S. Magistrate in Oklahoma City to making false statements to the Social Security Administration and was given a one-year suspended sentence, two years probation and required to make full restitution of the overpayment.  
Helen M. Castle, Fort Worth, pled guilty to one count of making false statements to the Social Security Administration before the U.S. Magistrate in Fort Worth, and was sentenced to one year in prison. She was representative payee for her disabled child's claim for SSI.  
Connie Stobaugh, Conway, Arkansas, pled guilty to one count of having made false statements to the Social Security Administration and was sentenced to one year supervised probation.

## Porcelain Art Guild

The Cameron Porcelain Art Club met Thursday evening at the Business and Professional Womens Club House for their regular meeting. Mrs. Eula Crook, president called the meeting to order.

Mrs. Duffie Caperton introduced the guest artist, Mrs. Alma Avots. She then gave a very interesting and informative demonstration on Bluebonnets, our state flower.

Mrs. Joe Heitman gave a very effective installation of new officers for the year 1977-78. They are: Mrs. Elliott Crook, president, Mrs. Harvey Radtke, secretary & treasurer, Mrs. Bill Mosley, corresponding secretary, Mrs. Frank Richter, historian.

Four visitors were present. They were: Opel Ekard, Amelia Von Matre, Lucille Marburger and Jonna Dye.

The club has nine new members: Inez Sladek, Roxann Jordan, Karon Staeger, Cathy Dodd, Rita Dye, Daisery Fry, Frances Hensley, Lillian Boecker & Charlotte Kember.

A salad supper was enjoyed by all.

Hostesses were Nill Davis, Mary Brumley, and Doris Lafferty.

## Library News

Some of your friends and neighbors of Cameron, Rockdale, Buckholts, Minerva, Burlington and others have been oil painting and now their pictures are on exhibit at the Cameron Library during May.

There are over seventy paintings of may and varied subjects. You are invited to come by during library hours to see these oils.

The painters are all students of Mrs. A.W. Zajicek, of Buckholts. Mrs. Zajicek teaches at Maxine's Boutique in Cameron.

## J.Douglas Thomas Speaks To Beta Nu

Mr. J. Douglas Thomas, coordinator of volunteers "Right to Read," MCC Regional Community Education Co-Op, of Waco, presented a resume of the program to teach adults who cannot read above the third grade level, to the meeting of Beta Nu Chapter of Delta Kappa Gamma, Saturday, May 7, at 9:30 a.m., at the Texan Cafe in Cameron.

Mr. Thomas gave statistics of illiteracy among adults in McLennan and Falls Counties, which showed the vital need of the program. Volunteers are recruited in the program to teach adults "one at a time" for best results. A volunteer would devote two to four hours each week in the work.

Rockne Terry, a teacher in the Marlin Schools, is coordinator for the program in Marlin. Over 3,000 adults in Falls County cannot read above the third grade level, and over 12,000 are in McLennan County.

Mrs. Byron Stubbs and Miss Bertha Pendergrass of Rosebud, Mrs. Sidney Hughes of Marlin, and Mrs. Billy G. Gest of Rockdale presented a program honoring the Twelve Founders of Delta Kappa Gamma.

During the business session, Mrs. N.B. Range, Beta Nu president, appointed members of Marlin, Rosebud, Cameron, and Rockdale to hold orientation sessions during the summer for the new members to be initiated at the September meeting.

Mrs. J.D. Lewis of Buckholts, former president of Beta Nu, presented to the chapter a beautiful scrapbook of biographies of Beta Nu members, compiled by her. Plans were made for

## Vacation Plans Increase Fun

COLLEGE STATION - Effective vacation plans can increase enjoyment--and cut spending, says Claudia Kerbel, consumer information specialist.

Ms. Kerbel is with the Texas Agricultural Extension Service, The Texas A&M University System. She recommends "six easy steps" for vacations that succeed:

Decide on vacation goals -- such as adventure, travel, cultural enrichment, exercise or relaxation.

For vacations with friends or the entire family, consider each person's favorite activity, also.

Know spending limits-- and save ahead or plan the budget carefully for a "vacation on credit". A plan will help combat the overspending temptations.

Consider off-season vacations to save money. Many summer resorts have low rates in May and September--or winter resort areas, such as Florida, have good summer rates. Also, off-season resorts will be less crowded.

Before leaving home, make sure you have all the clothing, equipment, and other necessary items.

# Happening about town

Gerry Prazak, Area Editor

Page 6, Cameron, Texas Herald, May 12, 1977

## Mark Ellison To Speak At Powers Chapel Sunday, May 29

Mark Ellison will be the main speaker for the annual all-day Memorial Day Services at Powers Chapel, Sunday, May 29, according to Mr. Bruce Royal, who has charge of the program for the day. Ellison is former Texas President of the Future Farmers of American and presently an aide on Congressman W.R. Poage's staff.

## Bake Sale In Buckholts

The Christian Sisters Society of the Buckholts Brethren Church will sponsor a bake sale and country store Saturday in the church educational Building.

The bake sale will feature kolaches and home made bread as well as cakes, pies, and other pastry.

Various goods, pot holders, aprons and other miscellaneous items will be available in the country store.

Proceeds of the sale will be used for improvement of the sanctuary.

The sale begins at 10 a.m.

LOCATE YOUR AIR CONDITIONER on the shady side of the house to save energy.

Mrs. Wanda Shields of Temple, singer and song writer, will be on the morning program for two songs. That afternoon, she will perform with more of her songs. She writes her own compositions and sings them to the accompaniment of a guitar. She says she is an environmentalist, and that her theme mostly concerns nature. All who have heard her say listening to her is an emotional experience.

Others on the program will be Gary Parker's Youth

## Berry Jelly Is All Time Favorite Of Texans

Chris Holcombe  
County Extension Agent

Dewberry and blackberry jelly is an all time favorite of Texans. Do you have these berries growing in your garden? Or can you buy them at a reasonably low price? Why not try your hand at making jelly at home. This is the way you can make the berry jelly successfully. Sort and wash three quarts of dew or black berries to get about four cups of juice. Wash the berries and remove any stems or caps. Very ripe berries may be crushed and the juice pressed out without heating. Otherwise add a small amount of water and bring to a boil on high heat.

Put the prepared fruit in a bag made from a clean, white cloth and then twist and press to remove the juice.

Put four cups of juice in a large pan. Add seven and one-half cups sugar and place on high heat stirring constantly. Bring quickly to a full rolling boil that cannot be stirred down. Add one bottle liquid pec-

Combo and the Cedar Springs Quartet. Everett Biers, Rosebud's Postmaster, will be Master of Ceremonies. The program, Sunday, May 29, will begin at 10:45 a.m. Dinner will be spread on tables under the giant trees in the churchyard at noon. Afterwards music and speaking will continue under the tabernacle.

Everyone is welcome to attend and to bring food for the noon hour.

"Departures should be sudden," Benjamin Disraeli

tin and heat again to a full rolling boil. Boil hard for one minute.

Remove from the heat and skim off the foam quickly. Pour jelly immediately into hot, dry jars or glasses that have been sterilized by boiling them in water for fifteen minutes. Fill to within one-eighth inch of top of containers. Seal jars immediately with a lid according to the manufacturer's directions. Fill glass to within one-half inch of top and cover with melted paraffin. Add enough paraffin to make a layer one-eighth inch thick. Prick air bubbles in paraffin. This recipe makes 11 or 12 ounce jars of jelly. Strawberry jelly is made the same way as dewberry or blackberry jelly.

If you would like more information on jelly making, all or write Milam County Extension Agent for a copy of H&GB 56 How to Make Jellies, Jams, & Preserves at Home & MP - 279 How to Make Jellies, Jams, Preserves, Marmalades and Butters at Home.

A light year is not a measurement of time but of distance. It is the distance a ray of light would travel in one year, about six trillion miles!

ARTS & CRAFTS FAIR - This antique Washington press and an antique press for etchings will be operational during the Texas State Arts and Crafts Fair in Kerrville on May 28-29-30.

Betty Zaggle and her father, A.L. Hasner will demonstrate four stages of printing and etching for fair visitors.

## Texas Arts & Crafts Fair To Be Held In Kerrville -May 28-29-30

A fairground for the sixth annual Texas State Arts and Crafts Fair is rising again on the oak shaded campus of Schreiner College in Kerrville.

This Hill Country setting has been bustling with activity for several weeks in preparation for the official state arts and crafts event. Fair dates are May 28-29-30 and the gates will open at 10:00 a.m.

Over two hundred artisans are arriving with arts and crafts ranging from pioneer to contemporary. Strictly juried, the artists and craftspeople demonstrate their craft and sell their work in the country fair surroundings.

## Miss Haisler Is Winner In Contest

Pamela Haisler, a Buckholts ISD junior, placed 4th in State UIL competition at Austin Friday.

Pamela participated in the Feature Writing contest which requires the contestants to interview and read information about an individual and then write a feature on the subject.

Pamela received a certificate on the basis of her performance this year she will be eligible to apply for a number of scholarships.

Pamela is the daughter of Mr. and Mrs. Norman Haisler Sr.

"Character is a long-standing habit." Plutarch

We're "cookin' for ya", too, so bring a hearty appetite. Fair food is famous in its own right. Feast on German and Mexican specialties, beef jerky, shishka-bobs, fried chicken, sweets and hill country peaches with cream.

Perhaps one of the greatest entertainment bargains in Texas the \$2.00 for adult and 50¢ for children admission price brings a full day of activities.

Over two hundred artisans are arriving with arts and crafts ranging from pioneer to contemporary. Strictly juried, the artists and craftspeople demonstrate their craft and sell their work in the country fair surroundings.

The second annual Baird Reunion will be held on Sunday, June 5 at the VFW in Thorndale. This will be an all day affair.

Everyone is to bring their own lunch or a basket lunch.

A RAW ONION AND A RAW POTATO taste about the same, experts say; it's only the sight and smell that make them seem so different.

YOUTH EXPO DEDICATION Saturday drew a number of leaders, among them former Cameron Mayor Gene Blake,

shown here addressing the visitors who came for the dedication of the new youth building.

## Court Makes Ruling On Social Security

A widower or a husband can get monthly benefits on his wife's social security record without proving dependence on her under a recent decision by the United States Supreme Court.

Previously a man had to prove he was dependent on his wife to get benefits on her record if she retired, became disabled, or died after working long enough in jobs covered by social security. A woman did not have to prove she was dependent on her husband to get benefits on his record.

Starting with payments for March 1977, neither men nor

women have to prove dependency. Husbands and wives can get reduced social security payments starting at 62 or full payments starting at 65.

Widowers and widows can get payments starting at 60 -- or starting at 50 if they're disabled.

Men who think they may be eligible under the court ruling can get information about applying for benefits by calling or writing any social security office, according to E. B. Oldham, Social Security District Manager in Temple, Texas.

"Social security payments

may be affected by earnings," Oldham noted. "You can earn as much as \$3,000 in 1977 and still get your full social security payment. But over \$3,000, social security payments are reduced by \$1 for each \$2 earned."

"That means that if your full social security benefit is \$225 a month, you could earn over \$8,000 for the year before your social security payment would be reduced to zero," he said.

The Temple Social Security Office is at the W.F. Poage Federal Building.

## Burlington

Mrs. Gerald Foshea

Mr. and Mrs. Ed Svoboda of Clarkson visited Mr. and Mrs. Otto Mayer last Tuesday night.

Mr. and Mrs. Otto Mayer visited Mrs. Ida Ethridge of Cameron last Friday eve.

# Soil Stewardship Week Planned

Man is responsible for protecting and conserving soil, water and other natural resources provided by God. Emphasis on that awesome responsibility will be the highlight of Soil Stewardship Week, May 15-22.

## Obituaries

### Gandy

N.W. Gandy Sr., 93, of Temple died Sunday morning in a Temple nursing home after a long illness. Funeral was at 2 p.m. Monday at Green Funeral Home in Cameron with the Rev. C.A. Kent officiating. Masonic graveside services followed at North Elm Cemetery near Buckholts. He was born in Cameron and had lived in Temple for the past 18 years. Surviving are his sons, Edwin Gandy of Buckholts and Kenneth Gandy, Willard Gandy and N.W. Gandy Jr., all of Temple; daughters, Mrs. Evelyn Loftin and Mrs. Myrtle Hill, both of Buckholts; 17 grandchildren and several great grandchildren.

### Boecker

Myrta Boecker, 87, of Cameron died early Tuesday morning following a long illness. She moved to Texas in 1902 and had lived in Ben Arnold until 1953. Since 1970, she had made Cameron her home. She was a member of the Cameron United Methodist Church. Funeral was at 2 p.m. Thursday in the chapel of Green Funeral Home in Cameron with the Rev. Stanley Vodicka officiating. Burial was in the Ben Arnold Cemetery. Surviving are three sons, V. Rufus Boecker of Fort Worth, August J. Boecker of Manor and Winford O. Boecker of Bryan; five brothers, Marvin Hearne of Fort Worth, Foreman Hearne of Wichita Falls, Rowland Hearne of Waco, Steven Hearne of Houston and Elmo Hearne of Cameron; 16 grandchildren and 12 great grandchildren.

### Overton

Charlie E. Overton, 85, of Rogers died in a Temple nursing home Thursday after a short illness. Funeral was at 10 a.m. Saturday in Hewett Funeral Home in Temple with the Rev. R.B. Baker officiating. Burial was in Hillcrest Cemetery. Mr. Overton was a farmer in Rogers and a member of the First Baptist Church in Rogers. He is survived by a son, Mike Overton of Temple; daughters, Mrs. Mae Thoebe and Mrs. Lillian Polston, both of Temple; stepsons, Bill Robinson of Dallas and Gordon Huddleston of Temple; step daughters, Mrs. John Spittler of Port Neches, Mrs. Clarence Thompson of Vidor, Mrs. Richard Bliss of Little River and Mrs. Johnny Goodnight of Temple; sister, Mrs. Clara Minton of Temple and Mrs. Annie McLerran of Waco; six grandchildren, eight great grandchildren and four great great grandchildren.

Theme of this year's nationwide observance is "When We Care." "The theme is designed to help everyone examine his own motives and actions in the conservation of God's manifold gifts," points out Dr. B.L. Harris, soil and water use specialist with the Texas Agricultural Extension Service.

The Extension Service is cooperating with the National Association of Conservation Districts and Soil and Water Conservation Districts throughout the state in the week-long observance.

"At a time when pressures are growing regarding the use of our natural resources, it is vital that we reflect on our dependence on God for all things," emphasizes Harris.

"We must be continually mindful of all the priceless gifts bestowed upon us by our Creator -- air, soil, water and sunshine -- which make all living things possible."

Many special programs and church services are being planned throughout the state to call attention to the responsibility of all people for the protection and proper care of the Lord's earth, adds the Extension specialist.

The custom of setting aside special days -- called Rogation Days -- for worship and prayer in thanksgiving for bountiful resources began more than 1,500 years ago in France when the country was suffering from crop failures and widespread hunger. The people united in prayer and penance and God answered their call.

"During Soil Stewardship Week, we should all acknowledge before God our gratitude for His gifts of the soil and all the bountiful resources associated with it," urges Harris.

## Bids Due For Milam Road Work

Bids for the rehabilitation of US 79 in Milam County are expected to be received at the May 18-19 letting of the State Department of Highways and Public Transportation.

The project extends from the eastern city limits of Thorndale northeastward for 4.2 miles.

Portions of the existing base and pavement show signs of failure. On those sections, the base and pavement are to be removed and replaced with asphalt stabilized base. The entire project will be overlaid with one inch of asphaltic concrete pavement.

The project is part of the Special Rehabilitation Program and when completed will provide many years of trouble-free surface for the traveling public.

Delton A. Kittrell of Hearne will be the department's engineer in charge of the work, while Bryan District Engineer Joe G. Hanover will provide overall project supervision.

## HOW DOES SHE DO IT ?

Knitting is Mom's thing . . . sweaters, skirts, scarves, the works. Somehow in her spare time she keeps house, raises a family, participates in her church activities, collects for the community fund, is a den mother, and on and on.

How does she do it? She evades this question.

If you ask me, a lot of people aren't like Mom. They stick to one job, one hobby, one project -- and frequently turn their back on others.

It's people like Mom who make "community" mean something. From her, the young learn that adding -- not dividing -- brings us together. That's what the church is all about . . . LOVE.

## Yoemen Fall To Panthers; Look For Seasons End

Cameron Yoemen Baseballers fell prey to the Rosebud-Lott Panthers Friday, as the Panthers defeated them as the Panthers.

The Panthers wasted no time scoring on the Yoemen, as they dented the scoreboard in the opening inning after a walk and a hit and a little help from a Yoemen error.

The Yoemen fought back in the second inning as Dan-

iel Garcia reached base on a walk, then advanced to second on a bunt and made it to the third bag on an overthrown ball before being tagged out in a rundown while attempting to score for the Yoemen.

The Yoemen had another chance to tie up the score in the fourth inning as Garcia again walked, Joe Reyes stepped to the plate, doubling to force Garcia to third, where the Yoemen runner was picked off. Reyes man-

aged third on a wild pitch but his attempt to score failed as he too was put out.

A misjudged fly ball gave the Panthers a triple in the sixth inning, the runner scoring on a fielders choice to give the Panthers a 2-0 lead and finally the game.

The Yoemen will close their season tomorrow, at home facing their cross-county rivals, the Rockdale Tigers. The game is to begin at 4 p.m.

## Swimming, Boating Claim Lives

Swimming and boating accidents continue to claim a large number of lives each year. Traffic deaths have declined, possibly due to the 55 mph speed limit, but nothing similar has happened on Texas waterways to control boating problems, the Texas Medical Association says. About 625 people drowned in Texas in both 1975 and 1974.

Every year when people get ready to hit the water for the first time, they need to check their boats for safety and run through a quick mental checklist of laws and procedures that could keep them out of trouble.

For instance, boats must have a lifejacket or some other flotation device for every passenger. Legal requirements about lights, horns, fire extinguishers and other safety devices vary according to boat size. The Texas Department of Parks and Wildlife, 4200 Smith School Rd., Austin, Texas 78744, can provide detailed information about water safety and boating.

Law requires children age 12 and under to wear life-jackets in a boat. However, many older, experienced swimmers drown because they do not wear lifejackets and are tired, injured or get cramps. If a boat accident occurs, the easiest and safest thing to do is hang onto the boat because it takes less strength than swimming and people can spot an overturned boat faster than a swimmer.

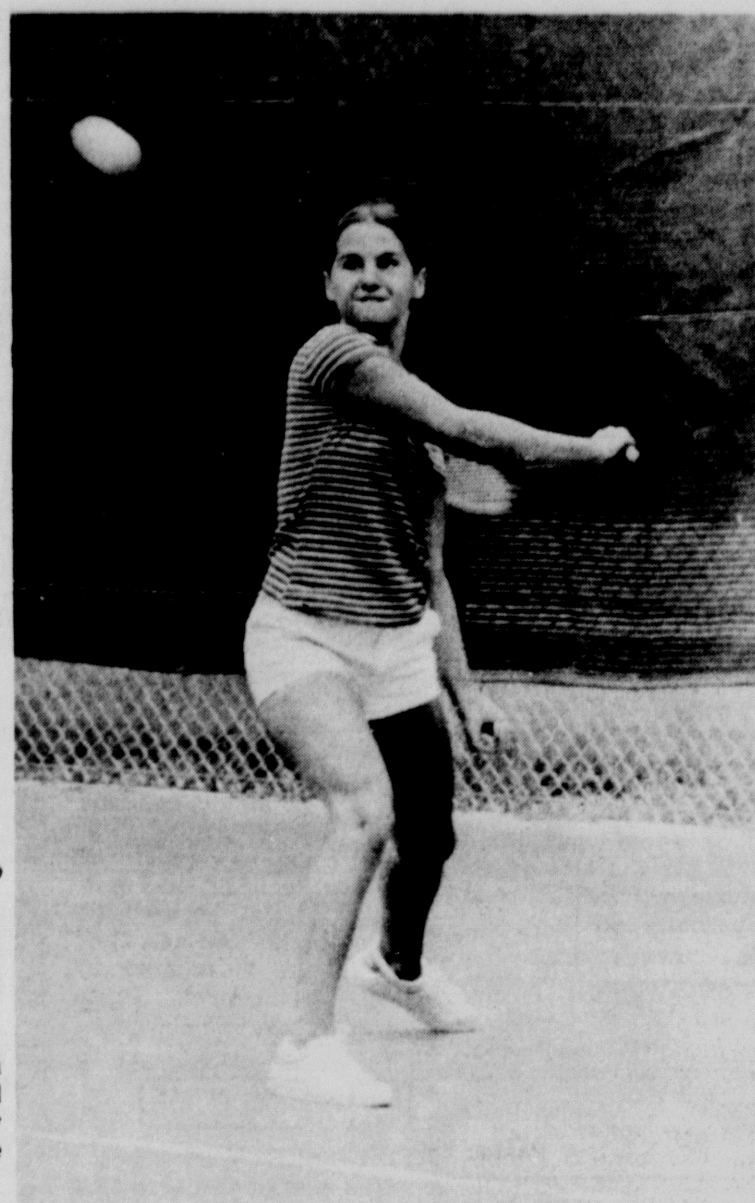

Another big problem is careless handling. Even in the wide open spaces of a lake, boats hit skiers, logs and other boats. Drinking, too much speed, and watching the skier instead of looking ahead are common causes of accidents that could be avoided.

## TJC Offers Summer Tennis Class

Registration is now open for summer tennis classes offered through the Continuing Education Division at Temple Junior College.

Lewis Hilley will instruct the classes for both beginners and intermediate students.

Four classes will be offered: Mondays from 5:30 to 7 p.m. May 30-July 11; Wednesdays from 5:30 to 7 p.m. June 1-July 6; Saturdays from 7:30 to 9 a.m. June 4-July 9 and Saturdays 9 to 10:30 a.m. June 4-July 9. Additional information and registration may be obtained by contacting the TJC Continuing Education office at 773-9961, ext. 66.

BETTY SUE CHUBB of the O.J. Thomas Tennis team won first place in the Georgetown tournament Saturday, defeating Taylor 6-1, 6-1 in the finals to sweep the girls singles competition.

At press time Betty Sue had reached the finals of the 7th and 8th grade district meet, which was being held in Cameron.

## May 1-7 Cited As Cycle Safety Week

Gov. Briscoe declared the week of May 1 as motorcycle safety week. The Texas legislature may observe the occasion by passing a bill repealing the law requiring motorcyclists over age 18 to wear helmets.

The Senate passed the legislation and as of April 20 it was waiting for a vote by the full House of Representatives.

Many studies show more people die or are seriously injured in motorcycle wrecks when they are not wearing helmets, the Texas Medical Association says.

Deaths from motorcycle accidents dropped 50 per cent when Australia and Japan made motorcyclists wear helmets. In another study, Illinois, which did not have a helmet law in 1974, compared its motorcycle crashes with Michigan, which does have a helmet law. Three times as many people were killed or seriously injured in Illinois.

The comparison, which probed 5,000 accidents, showed compulsory use of motorcycle helmets reduced injuries and deaths 63 per cent.

Many neurosurgeons, doctors who work with brain problems, point out an injured brain cannot repair itself like cut skin. For instance, if a motorcycle rider's head hits the pavement and a piece of skull cuts the brain, that injured brain tissue dies.

Many people believe it is their right to risk their lives and health riding without helmets. Some physicians point out it costs society a lot of money to take care of a permanently injured person. A victim's family and insurance only can pay a small part of the enormous expenses involved with providing therapy for the severely injured or care for someone who may be a permanent "vegetable."

The Governor's Office of Traffic Safety, insurance companies and others who have testified about the bill at hearings say benefits such as saving lives far outweigh any helmet hazards.

## Salach Places 7th In Tourney

Mike Salach of Cameron placed seventh in the 1977 National Rifle Association Jr. 4 position 50 yard outdoor regional Championship held in Fort Worth Saturday. Salach shot a 731 out of a possible 800.

Salach was one of forty three participants in the event.

The competition was sponsored by the Fort Worth Rifle and Pistol Club and was a National Rifle Association registered outdoor tournament.

Toads just developed from tadpoles are no bigger than a kernel of corn.

## Delony Receives BC Award

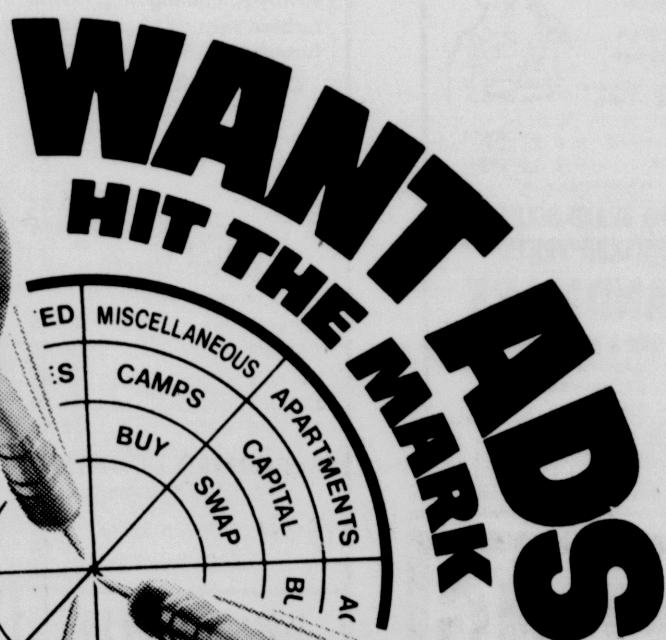

David Delony was presented the Booster Club Award at the annual Yoe High All-Sports banquet held Monday night. The award was presented by Yoe head coach Max Graham.

Lincoln Mondrik was named Booster of the Year, with that plaque presented by L.W. Turner.

Jonie Wilkerson was named Football Sweetheart, with honors coming from football captains Joe Schmidt, David Rosemond and Aaron Miller.

Guest speaker was Fred Akers, head coach at The University of Texas.

The banquet honored participants in golf, tennis, baseball, track, basketball, football, and girls athletics.

From 3.3 Mi. N.E. of FM 485 to W. End of Brazos River Bridge.

## High Potency Vitamin E

## Sexual Potency Quickly Improves With New 'E-Pill'

NEW YORK, N.Y. (Special)—An amazing new "super-charged" vitamin E-Pill has recently been developed that reportedly "quickly increases and rejuvenates sexual drives and potency for both men and women of all ages. It also makes them feel healthier and more youthful". It is now available to the American public.

The new high potency E-Pill not only seems to increase sexual ability of both sexes but also "actually perks up sexual interest and stimulates a persons desires," according to a spokesman for the manufacturer.

**ALSO IMPROVES GENERAL HEALTH**

This new, easy-to-take E-Pill contains newly formulated, highly concentrated vitamin E. It tends to quickly build up and strengthen the natural physiological processes of the body that are believed to be basically responsible for its potency, youthfulness, health and long life.

**HELPS 4 OUT OF 5 PEOPLE**

Indications are that the new E-Pill gives quick and effective results to as high as 4 out of 5 people (80%) who have used it. Some people report no great change but feel the high potency of vitamin E in the pill does quickly make them feel better from a general health standpoint.

Other reports also show it tends to "lessen daily tension and give a more relaxed, happier outlook on life."

**NOW AVAILABLE**

The use of these high potency (one-a-day) E-Pills is perfectly safe and are now available without prescription from the manufacturer by mail order only. To get your supply, send \$6.95 for a 2 week supply, (or \$10.95 for a 30 day supply, or \$17.95 for a 60 day supply) cash, check or M.O. to:

The Mail Bag, Box 317, Woodmere, N. Y. 11578

(Unconditional money-back guarantee if not satisfied.)

## PUBLIC NOTICE

## FIGHTING INFLATION

Inflation could be kept down if everyone conserved fuel by putting up storm windows and doors and installing insulation. Each of these measures can cut heating bills by as much as 70 percent.

\*\*\*  
Inflation could be kept down if shoppers were careful not to bruise produce in the supermarket.

\*\*\*  
Inflation could be kept down if people bought light bulbs that save energy by being efficient. The most efficient bulbs are those that are white or frosted.

\*\*\*  
Inflation could be kept down if unemployment is kept down, and the Post Office is not forced by lack of government subsidies to throw even more people into the over-crowded job market.

\*\*\*  
Inflation could be kept down if shoppers bought for food for value. As a protein source, for instance, eggs are less expensive than meat when the price of a dozen large eggs is not more than a pound of boneless beef stew.

\*\*\*  
Inflation could be kept down by smart shoppers who buy energy-saving appliances such as dishwashers that dry by natural air convection instead of fans.

## WANTED

Experienced dozer operator for new Cat. D8-K cab and air conditioned. Must qualify for soil conservation work. See Charles Camp, San Gabriel TX 76577, phone 512-862-3255.
